IMPORTANT INDICATIONS AND SAFETY INFORMATION for the TECNIS®
1-Piece Monofocal IOL

Reference the labeling for a complete listing of Important Indications and Safety Information.

Caution:
Rx Only.

Indications:
The TECNIS® 1-Piece lens is indicated for the visual correction of aphakia in adult patients in whom a cataractous lens has been removed by extracapsular cataract extraction. These devices are intended to be placed in the capsular bag.

Warnings:
Physicians considering lens implantation should weigh the potential risk/benefit ratio for any conditions described in the TECNIS® 1-Piece IOL Directions for Use that could increase complications or impact patient outcomes. The TECNIS® 1-Piece IOL should not be placed in the ciliary sulcus.

Precautions:
Do not reuse, resterilize, or autoclave.

Adverse Events:
The most frequently reported adverse event that occurred during the clinical trial of the 1-Piece IOL was macular edema, which occurred at a rate of 3.3%. Other reported reactions occurring in less than 1% of patients were secondary surgical intervention (pars plana vitrectomy with membrane peel) and lens exchange (due to torn lens haptic).
